

# BASF DAYS Construction Chemicals for students and doctoral candidates

Save the date, 4 to 6 December 2017  
Ludwigshafen, Germany

 **BASF**

We create chemistry

## BASF DAYS Construction Chemicals

Students and doctoral candidates from all over the world will meet at the BASF site in Ludwigshafen, Germany as guests of the world's leading chemical company. They will have an opportunity to gain an insight into a truly international company.

During your visit to the world's largest contiguous chemical complex you will take a tour of the 10 square kilometer site, a large construction site and the wine cellar.

### **BASF DAYS Construction Chemicals include, among other things:**

- Lectures on the construction chemistry and technologies
- Alumni reports and experiences
- Product demonstrations with active participation
- Discussion sessions with senior managers
- Information about employment opportunities
- Work on a group project based on an industry specific case study
- And much, much more ...

You will benefit from an atmosphere of open communication, and are invited to get to know an international network of employees from a variety of operating divisions. You are of course our guests and we will bear the costs of travel, accommodation and meals.

## Application

### **Interested?**

We look forward to receiving your application not later than **November 3rd 2017** via e-mail including your CV and cover letter to:

Manfred Schnapp  
Human Resources  
Construction Chemicals Europe  
phone: +49 (0)621-60-74465  
e-mail: [manfred.schnapp@basf.com](mailto:manfred.schnapp@basf.com)
