

Client: _____

Phone and e-mail: _____

Institution: _____

Research group Leader: _____

Sample Type: Small molecule Protein

Complexity: Mixture Single compound

Samples (name and formula):

Expected mass list:

_____	_____
_____	_____
_____	_____
_____	_____
_____	_____

Sample description (analyte concentration, buffers, salt content, soluble in ACN, Methanol or H₂O?, etc) :

Samples are stable at _____ °C for _____ days.

ANALYSIS

Front end: Direct injection nanoLC

* Min for direct injection – 0,5mg or 500 µL, for nanoLC - 10µL,

Analysis type: MS MS²

Detector polarity: + -

Proteins subsection:

Intact Digested (give enzyme and digestion conditions below)

Date: _____
