

Библиографија

Радови објављени у истакнутим међународним часописима (M22)

1. Sourkouni, G., Jeremić, S., Kalogirou, C., Höfft, O., **Nenadović, M.**, Janković, V., Rajasekaran, D., Pandis, P., Padamati, R., Nikodinović-Runić, J., & Argirusis, C. (2023). Study of PLA pre-treatment, enzymatic and model-compost degradation, and valorization of degradation products to bacterial nanocellulose. *World Journal of Microbiology and Biotechnology*, 39(6). <https://doi.org/10.1007/s11274-023-03605-4>
2. Ašanin, D., Andrejević, T., **Nenadović, M.**, Rodić, M., Vojnović, S., Djuran, M., & Glišić, B. (2023). Comparative study of antimicrobial potential and DNA/BSA binding affinity of silver(I) and gold(III) coordination compounds with 1,6-naphthyridine. *Polyhedron*, 244, 116585–116585. <https://doi.org/10.1016/j.poly.2023.116585>

Саопштења са међународног скупа штампана у изводу (M34):

1. **Nenadović, M.**, Tomić, N., Nikolić, S., Vujčić, Z., & Šokarda Slavić, M. (2021). A search for nature's robust proteases with zein as a substrate. In *Book of Abstracts of 10th Serbian Biochemical Society Conference "Biochemical Insights into Molecular Mechanisms"*, p. 158, 24th of September 2021. Kragujevac, Serbia
2. Janković, V., Nikodinović-Runić, J., Radetić, M., Marković, D., Stevanović, M., **Nenadović, M.**, & Ilić-Tomić, T. (2023). Microbial live interactions with textiles. In *Book of Abstracts of 10th Congress of European Microbiologists*, p. 835, 9-13 July 2023, Hamburg, Germany
3. Sourkouni, G., Kalogirou, Ch., Papadimitriou, N., **Nenadović, M.**, Ponjavić, M., Argirusis, N., Pandis, P., Rajasekaran, D., Padamati, R., Ferraro, A., Nikodinović-Runić, J., & Argirusis, C. Plasma assisted bio-degradation of poly-lactic acid (PLA). *10th International Conference on Sustainable Solid Waste Management*, 10, 21-24 June 2023, Chania, Greece
4. Milovanović, J., **Nenadović, M.**, Pantelić, B., Ponjavić, M., Sourkouni, G., Kalogirou, C., Argirusis, C., & Nikodinović-Runić, J. (2023). Enhanced enzymatic depolymerization of polylactic acid (PLA) through plasma pretreatment and subsequent conversion to biopolymer. *E-Congress of European Society of Applied Biocatalysis*, 27-29 November 2023
